

Public information days for East Anglia ONE Offshore Windfarm

Drop-in events are going to be held to inform local communities about upcoming works at the East Anglia ONE Offshore Windfarm substation site, adjacent to National Grid's substation at Bramford.

Civil enabling works will commence on 1st May to prepare the site for the main construction work starting later in the year. This preliminary work will include the installation of temporary cabins, a temporary stone access road, permanent drainage and construction of a level platform for the substation.

If you would like to find out more about these works and ScottishPower Renewables' plans for East Anglia ONE, please come along to one of the drop-in events below.
